News from the ASD...

UPDATE FROM THE ASSOCIATION OF SOUND DESIGNERS

# THE HERALD

## Merry Christmas

We hope you had a good Christmas...

## WeTransfer

We have setup a WeTransfer site which is free for all our members to use to send and receive large files - up to 2GB per transfer. It's a lot simpler and cleaner than a lot of the alternatives and **doesn't** require an account, display adverts, make you wait or download software to access the files. Files are held online for 4 weeks and you receive an email when your files are downloaded by the recipient.

You can access it here:

<https://asd.wetransfer.com>

And, you can give out the address so other people can send files to you.

Why not try it out now by sending yourself a file to see how it works.

## Offers

**John Leonard: Free Sound Effects and Discount**

John Leonard has produced a selection of free sound effects from his sound effects library for ASD members to download:

<https://files.me.com/johnsound/j5dsic>

John is also about to release a new collection of sound effects called The Voice Of Poseidon which consists of 90 tracks of seascapes, with a couple of rivers and waterfalls thrown in for good measure, including a Niagara Falls composite. Almost all files are over three minutes, with some even longer, to avoid that "heard it before" looping nastiness. It will be available for \$80 when it releases but a special 44.1kHz/16 bit version has been made for ASD members by John for just £25, giving you around 4 GB of material. Simply send £25 via **PayPal** to [john@johnleonard.co.uk](mailto:john@johnleonard.co.uk). [Visit here](#) for more details on sending money via PayPal.

### **Hollywood Edge**

Hollywood Edge are offering 25% off all products until January 1st, simply use the coupon code ENDOFYEAR at checkout.

### **Waves plugins**

50% off all Waves plugins, upgrades and bundles until December 31st
